TECHNICAL SKILLS

Proficient: Node, Javascript, Java, React , Git, Express

Knowledgeable: HTML5,Css, Vue, Angular, Tailwind

TECHNICAL PROJECTS

Nike Similar Website | Developer | December/2023 | [Link to the Project](#) | [Github Repo](#)

- Developed a responsive and visually appealing Nike-themed e-commerce website using React and Tailwind CSS.
- Implemented dynamic features, such as product catalog, user authentication, and cart functionality, enhancing the overall user experience.
- Utilized React for efficient state management and component-based architecture, resulting in a modular and maintainable codebase.
- Integrated Tailwind CSS to streamline the styling process, ensuring a consistent and polished design throughout the website.
- Conducted thorough testing, including unit tests and user acceptance testing, to identify and address potential issues, ensuring a robust and reliable application.
- Optimized website performance, achieving fast load times and a smooth user interface, contributing to positive user engagement.
- Demonstrated problem-solving skills by overcoming challenges in the development process and delivering a high-quality final product.
- Stayed current with industry trends and best practices, incorporating the latest technologies to enhance the website's functionality and aesthetics.

Ecommerce website project | Developer | september/2023 | [Link to the project](#) | [Github Repo](#)

- *Spearheaded the end-to-end development of a comprehensive e-commerce website, akin to industry giants like Amazon and eBay, using React.*
- *Designed and implemented the player product page, employing a user-centric approach to enhance the browsing experience. Implemented features allowing users to effortlessly search, scroll, and add products to their cart.*
- *Developed a seamless cart page, providing users with an intuitive interface for reviewing and managing their selected products.*
- *Implemented robust authentication mechanisms using local email and password, ensuring secure access and enhancing user account management.*
- *Collaborated closely with cross-functional teams to gather and understand project requirements, contributing to effective decision-making and problem-solving.*
- *Conducted extensive testing, including unit tests and user acceptance testing, to identify and rectify potential issues, ensuring a bug-free and reliable website.*

- *Applied responsive design principles to ensure a consistent and user-friendly experience across various devices.*
- *Demonstrated proficiency in React, leveraging its capabilities for efficient state management, modular component development, and an overall enhanced user interface.*
- *Maintained an awareness of industry trends, incorporating the latest technologies to optimize website performance and stay ahead of the competitive curve.*
- *Successfully delivered a fully functional and polished e-commerce website, meeting project goals and exceeding user expectations.*

Puppy bowl project | Co-Developer | june/2023 | [Link to the project](#) | [Github-repo](#)

- *Collaborated as a Co-Developer with a team of 2 to create a dynamic client-side for the Puppy Bowl project, enhancing the user experience by fetching and rendering data from an external API.*
- *Utilized HTML, CSS, and JavaScript to design and develop the frontend, ensuring a visually appealing and responsive interface.*
- *Implemented industry-standard professional practices, ensuring code quality, readability, and adherence to best practices in frontend web development.*
- *Engineered functionality to request data from the API, showcasing the roster and player details on the frontend.*
- *Integrated fetch, async, and await techniques, leveraging CRUD operations against a REST API. This allowed users to seamlessly perform common actions such as adding or deleting players from the roster.*
- *Demonstrated proficiency in expanded JavaScript and intermediate programming, contributing to the project's robust and scalable architecture.*
- *Collaborated closely with teammates to achieve project goals, fostering effective communication and teamwork.*
